

THE ROAD MAP TO NOVEMBER
Major events

- June 14 Public Forum: Explore the economics of investing in education. Invite the national economists (e.g. Art Rolnick, James Heckman, Richard Simms, Anthony Carnevale, etc.) What are the “social returns” for raising the level of educational attainment – more civic participation, less crime, better health care, etc.
- November 13 Education Summit: Governor’s second education “summit” with a keynote speaker and invited participants (e.g. legislators, chambers of commerce, business leaders, WEA and other education stakeholders, college presidents, private philanthropy, etc.). Purpose would be to announce final report and begin a “call to action”
